Software Engineer

ksashrithbhat@gmail.com • 97395 96100
Bengaluru

Experienced Software Developer offering more than **8+** years of experience in bringing forth expertise in design, installation, testing and maintenance of software systems. Proficient in various platforms, languages, and embedded systems. Proficient in an assortment of technologies, including **JavaScript, Java**, Dart and Power BI. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

Professional Experience

CISCO SYSTEMS INDIA PVT LTD, Bengaluru July 2018 — Present
Software Engineer

- Played a pivotal role as a UI developer (React, Cypress, React test library, Jest) for Catalyst Center - Wireless Controller Management, ensuring a sleek and user-friendly interface for efficient management of wireless controllers.
- Demonstrated versatility as a Full Stack Developer, leading the development of an automation run dashboard using React and Node.js. Successfully integrated front-end and back-end components to deliver a seamless and efficient dashboard for automation processes.
- Excelled as a React Native developer for the User Defined Network (UDN), contribution to the seamless integration and functionality of the platform.
- Drove impact insights as a Power BI developer, creating and optimizing dashboards for all Wireless and App hosting projects, enhancing data visualization and decision-making processes.
- Developed automated scripts to simplify common tasks and reduce manual effort

Compassites Software Solutions, Bengaluru April 2016 — July 2018
Associate Software Engineer

- Spearheaded Android development for a diverse array of projects, including the acclaimed MagicBricks Agent Smart Diary, Myntra Delivery(Android App), mfine, and Azure Power (React-Native App).
- Led the charge on innovative Internet of Things (IoT, Python) initiatives, such as Medicine Reminder kit and the implementation of Face Detection and Tracking systems.
